SITE RECONNAISSANCE AND GROUNDWATER
SAMPLING
BRIDGEPORT NAME PLATE, INC.
MONROE, CONNECTICUT
TDD No. F1-9105-01
Reference No. \$375CTY7I\$1
CERCLIS No. CTD011184272

On Wednesday August 7, 1991 NUS/FIT personnel conducted a site reconnaissance and groundwater sampling activities at Bridgeport Name Plate, Inc. located in Monroe, Connecticut (Figure 1). The property is currently occupied by Horizon Engineering.

NUS/FIT personnel present for the field activities were Karen Wedlock-Hunt (Project Manager), John Verban, Wes LaParl, and Alexander Easterday. NUS/FIT personnel were joined by Joseph Marsillio, the property owner, and Elmer Burd, the NUS Zone Health and Safety Monitor.

All work was conducted in accordance with the reviewed and approved Task Work Plan No. D-583-8-1-3 dated July 15, 1991, except for the collection of groundwater samples GW-02, GW-03, GW-03R, GW-04, GW-05, GW-06, and GW-07. The depth to bedrock was shallow and groundwater was not attainable, therefore the samples could not be collected.

All groundwater samples were submitted for SAS volatile organic, semi-volatile organic, and inorganic analyses through the Contract Laboratory Program (Table 1).

A receipt for samples collected was given to Joseph Marsillio before NUS/FIT left the property.

Approval:

Robert Jubach
FIT Office Manager
